THERAPEUTIC SPA TREATMENTS FOR HAIR

Relax and escape from everyday stress with one of our therapeutic spa treatments. It may only be a short interval - treatments take only 5-30 minutes depending upon your needs - but during that time you will receive a scalp, neck and shoulder massage and your hair will look and feel replenished and revitalized. Our treatments consist of a range of thirteen salon and spa-tested regimens that incorporate the latest technological breakthroughs along with natural botanical blends. Combined with the circulatory benefits of massage, they produce immediate and gratifying results for all hair types.

purifying TREATMENT

Arouse and stimulate flaky, dry, tired scalps. A therapeutic treatment for problem scalps, the Purifying Treatment provides the ultimate cure. Begin with Sensories™ Purify™ Deep Cleansing Shampoo to rid the scalp of impurities. Formulated with cucurbita and tea tree oil, a special blend of botanicals. These natural astringents have been used for centuries for their healing and soothing properties. Combine with circulatory massage therapy to stimulate the scalp and increase the circulation while adding the moisturizing benefits of sunflower and apricot extracts. Scalp and hair will regain its natural harmony, vitality and luster.

vibrant color TREATMENT

There are all kinds of color-treated hair today: demi permanent color, permanent color, bleached, highlighted and an infinite number of combinations of each. The one thing they have in common is they all need special care to maintain their rich, vibrant effects. The Vibrant Color Treatment is the most technologically advanced regimen available to begin your care treatment, starting with the very day the hair gets colored. It's designed to gently protect all kinds of color-treated hair with the addition of special UVA/UVB sunscreens and antioxidants to prevent color fading, and special conditioning proteins, sealing silicones, and natural botanicals to ensure that color looks and feels healthy with natural shine.

rejuvenating TREATMENT

A balance of protein and moisture is essential to healthy hair. The Rejuvenating Treatment restores what everyday styling routines and environmental stress deplete from the hair. Guarana and ginger, along with sunflower and apricot extracts, help to restore a perfect harmony of strength and elasticity. Specially formulated with natural amino acids and naturally derived vegetable proteins for added strength and body. Adds a healthy, natural sheen; provides protective sunscreens, provitamin B5 and other essential ingredients for added body, shine and manageability.

brightening TREATMENT

Sometimes pale, baby-blond hair gets tarnished with brassiness, and undesirable yellow and gold tones. The Brightening Treatment is sure to restore cool, icy tones to color-treated bleached blonde as well as natural blonde and natural gray hair. Combined with a moisturizing and strengthening treatment, hair will emerge strong and supple, with clarity of color and shine.

revitalizing TREATMENT

Even normal hair and scalp need stimulation and refreshment. The Revitalizing Treatment combines circulatory massage therapy with essential protein and moisture blends to stimulate, soothe and refresh. Escape everyday stress with this wonderful combination, designed to provide balance, total relaxation and wellness.

body & fullness TREATMENT

Styling products, even some conditioners, can build up on the hair, weighing hair down, making it dull, limp and lifeless. The Body & Fullness Treatment begins with a rosemary and quillaja clarifying shampoo that gently but thoroughly removes any cosmetic residue or buildup, and is followed by the application of bodifying agents that penetrate the hair, adhering to inner fibers and strengthening and bodifying from within. Hair's vitality and fullness are restored and the hair feels fuller, thicker, and full of bounce.

brilliance TREATMENT

Color-treated hair needs special care. The Brilliance Treatment enriched with grapefruit extracts and moisturizing honey is designed to help maintain hair color's vibrancy and intensity. It actually helps to prevent fading while improving hair's resiliency and shine. The hair is also strengthened with proteins, guarana and ginger, and moisturized with sunflower and apricot extracts.

smooth & silken TREATMENT

When the outer cuticle layer is raised it tangles easily, especially if the hair is coarse, curly, wiry or frizzy. The hair can actually become unmanageable and also lack shine. The Smooth & Silken Treatment uses honey, wheat protein, aloe, passionflower and apricot extracts to help realign the cuticle, make the hair smooth, soft, pliable and silky, and improve manageability and control.

healthy TREATMENT

Daily styling routines, environmental factors, thermal stress or chemical abuse deplete hair of its natural strength and sheen. The Healthy Treatment is an ultra-powerful three-step treatment that dramatically improves the strength of weak or damaged hair, up to 3 times more than that of conventional formulas. This treatment actually penetrates the cortex, moisturizing and fortifying from within as it protects the outer cuticle layer. Restores hair's strength health and vitality. Continued at-home use of this regimen delivers soft, supple, manageable hair with spectacular strength, shine and luster.

swimmer's TREATMENT

Salt water, chlorinated pools and too much sun can rob hair of its natural vitality and even discolor hair. The Swimmer's Treatment begins with a detoxifying shampoo that helps to restore hair to its natural color and vibrancy. Natural botanical blends help to restore hair to a more natural state. Your hair will regain its former luster and flexibility. Damage from water, sand and sun will be only a memory.

R U S K

hydration TREATMENT

Maintaining or restoring essential moisture is the key to healthy, vibrant hair. Daily styling stress and environmental factors can rob hair of moisture. The Hydration Treatment provides a unique blend of hydrating honey, strengthening proteins, bodifying vitamins and moisturizing apricot and vitamin-rich sunflower extracts to help restore suppleness while improving texture and feel. Dehydrated hair looks and feels dramatically different after just one treatment.

nourishing body TREATMENT

Luminous skin comes from being well hydrated, nourished and protected. Daily care for every skin type should consist of a simple two-step plan: cleansing and moisturizing. The Nourishing Body Treatment introduces you to the lush, fragrant system that includes Calm™ Ginger and Guarana Moisturizing Body Wash and Calm™ Ginger and Guarana Moisturizing Body Lotion. Gentle enough to cleanse with every single day, and light and luxurious enough to apply and reapply as often as desired.

bio-marine shine TREATMENT

Daily styling routines, environmental factors, thermal stress, chemical abuse, even the natural aging process deplete hair of its natural sheen. The Bio-Marine Shine Treatment transforms dry, dull, lifeless hair into healthy, shiny, youthful looking hair. Hair is saturated in deep penetrating and revitalizing nutrients harnessed from the sea, highly concentrated with natural moisture-rich lipids, protective UVA/UVB absorbers and strengthening vegetable proteins, the essential ingredients for achieving and maintaining healthy, shiny hair.
